Call for Applications CoRE-AID Research Exchanges 2026-2027

Overview and scope of the call:

The University of Tübingen, co-lead of the Cluster of Research Excellence in Advanced Infectious Diseases (**CoRE-AID**) Research and Training, is receiving applications for research exchanges in the framework of the Erasmus+ International Credit Mobility project between the University of Tübingen and The University of Ghana, Kamuzu University of Health Sciences, and University of Cheikh Anta Diop. This call is aimed at graduate students (Masters or PhD) working on infectious diseases, and who have an interest on developing research skills while gaining access to a cutting-edge research ecosystem, and participating in an enriching cultural and academic exchange.

We are looking for highly motivated graduate students at the University of Ghana (2), University of Cheikh Anta Diop (1), and Kamuzu University of Health Sciences (2) to start a research exchange for up to 10 months at the University of Tübingen, Germany, starting on October 2026.

Eligibility criteria:

- You must be enrolled as a graduate student (Masters or PhD) at the University of Ghana, University of Cheikh Anta Diop, or Kamuzu University of Health Sciences.
- You must have completed at least one year of study in the graduate program.
- You demonstrate motivation and a clear academic or professional benefit from participating.
- You have a minimum level of B1 in English.

Duration and costs covered:

The ERASMUS+ KA171 funding is intended to support the living costs during the stay, and the travel expenses to Tübingen. The research exchange has a duration of up to 10 months, and the student will receive a monthly stipend 1150 EUR.

Please send your CV and motivation letter to andrea.borbon@klinikum.uni-tuebingen.de until the **15 of April of 2026**. CoRE-AID is committed to bridging the gender and diversity gap in research; therefore, we highly encourage female students and people from all backgrounds to apply.
